Email: face@philasd.org

**The English as a Second Language Program**:
The ESL program helps English Learners (ELs) improve their proficiency in listening, speaking, reading, and writing in English in order to fully engage in rigorous grade level content and academic standards. It aims to provide ELs with social and academic language skills, as well as cultural aspects of English necessary for career and college readiness.

→ *Examples of ESL program support might look like:*

- An ESL teacher leading the instruction in an English Language Development class/course
- An ESL teacher joining a general education classroom in order to offer additional supports
- A grade/content teacher who is trained in incorporating language supports is leading the instruction

**The Bilingual/Dual Language Programs**

- Bilingual/Dual Language Programs put native English-speaking students and native Spanish-speaking students together for a shared learning experience. Dual Language Programs, which constitute one type of bilingual program, provide participating students with content instruction delivered in both languages. For questions and a list of schools offering the Dual Language Program, email multilingual@philasd.org.
